CAREER OBJECTIVE

Frontend Developer with hands-on MERN stack experience building responsive React/Next.js applications, REST API integrations, dashboard UI, authentication flows, and reusable components. Seeking a frontend/MERN role where I can ship clean user interfaces, improve performance and accessibility, and use AI tools responsibly for debugging, documentation, test-case planning, and faster delivery.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Next.js

UI / Styling: Tailwind CSS, HeroUI, DaisyUI, Framer Motion, Responsive Design, Accessibility

Backend & Database: Node.js, MongoDB, Better Auth, JWT, CRUD Operations

Forms/Data: Fetch API, React Hook, Filtering, Search, Protected Routes, Role-Based UI, Error Handling

Tools/Deployment: Git, GitHub, VS Code, Vercel, Netlify, npm, ESLint, Figma-to-code, Figma, UI Design

AI Workflow: ChatGPT, Gemini, Claude, DeepSeek, AI-Assisted Debugging, Technical Documentation

PROJECTS

Doctor Appointment System | React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS

A full-stack healthcare appointment booking platform that allows patients to browse doctors, schedule appointments, and manage healthcare interactions through a secure and responsive interface.

[Live Demo](#) | [Client Repository](#) | [Server Repository](#)

- Browse doctor profiles and book appointments through an intuitive user interface
- Implemented JWT authentication, protected routes, and role-based access control
- Built appointment management workflows with REST API integration and MongoDB database support
- Added form validation, error handling and responsive design for improved accessibility and user experience

Book Library Application | React.js, Node.js, Express.js, MongoDB, Tailwind CSS

A full-stack online library management system that enables users to explore books, manage collections, and track borrowing activities through a modern and responsive platform.

[Live Demo](#) | [Repository](#)

- Browse, search, and filter books through an organized catalog system
- Implemented user authentication, protected routes, and complete CRUD functionality
- Developed book management features for adding, updating, and tracking library resources
- Optimized application performance and ensured seamless responsiveness across devices

HireLoop – Job Portal Platform | Next.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS

A full-stack job portal platform that connects job seekers with recruiters through a modern and responsive web application, enabling efficient job searching and recruitment management.

[Live Demo](#) | [Client Repository](#) | [Server Repository](#)

- Developed job posting and application management features for recruiters and candidates
- Implemented secure authentication, role-based access control, and protected dashboards
- Built advanced search, filtering, and job categorization functionality for improved user experience
- Integrated REST APIs, form validation, and responsive UI to ensure smooth performance across devices
